BIOGRAPHY

Charles Dombek, CPA MBA, is an internationally recognized financial and wealth architect and is one of the foremost authorities on domestic and international tax planning and mitigation. He has been a practicing CPA for over 30+ years and is the founding partner at The Optimal Financial Group, which is a boutique CPA firm with a national footprint.

Charlie has raised more than \$100m in equity for real estate acquisitions totaling nearly \$1B over the past few years. He is a direct sponsor of an asset-backed lending platform in micro-lending niches as well as a FOREX trading platform with over \$50M in capital under management.

Charlie’s clients include family offices, professional athletes, entertainers, and highly successful healthcare professionals. Charlie began his career in the late 80’s at the Big Four national accounting firm Ernst and Young. He holds an MBA from the College of William and Mary, along with a Bachelor of Science in Accounting from Virginia Tech. He is a highly recognized author and a regular speaker at financial and investment workshops throughout the world.

Outside of the office, Charlie can be found around the world in the streams and rivers with a fly rod in his hand and chasing world championships on the men’s senior tennis circuit.

AXIUM WEALTH OVERVIEW

Axiom Wealth is a Wealth Acceleration and Tax Mitigation Company that offers personalized financial strategies to help our clients build wealth and minimize taxes. We know that 80 percent of the ability to grow your wealth rapidly is dependent upon how much you pay in income taxes and how well your investments perform. We have a consistent track record of recovering dollars our clients unnecessarily pay in the form of state and federal income taxes. Our team helps clients responsibly reallocate capital out of market-based investments into passive real estate and alternative investments. Our clients typically save 30 percent or more on their taxes, are potentially able to increase multi-year rates of returns by a factor of three or more, and are able to reach their financial freedom goals years, if not decades, before normal retirement age.
